Storm blue

A powerful and elegant blue hue, inspired by the depths of the ocean.

Choosing blue in the kitchen is a great way to create a fresh, inviting, and timeless atmosphere. Here are a few reasons why blue is a fantastic choice for your kitchen:

1. Creates calm and harmony.

Blue is known for its calming and stress-relieving properties. By incorporating blue tones in the kitchen, you can create a harmonious space that feels welcoming and soothing — perfect for both cooking and socializing.

2. Timeless and versatile.

Blue is a classic color that never goes out of style. Whether you choose a light sky blue or a deep navy hue, you can be sure your kitchen will feel both modern and timeless.

3. Easy to combine.

Blue is a versatile color that pairs beautifully with various materials and other colors. Combine blue with natural wood for a warm and inviting feel, or with white and stainless steel for a fresh, modern look.

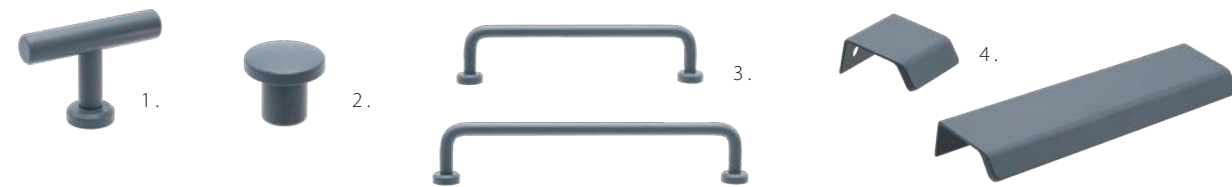

Blue in the kitchen is more than just a color – it's an experience that creates a space you'll love to be in!

4. Enhances the details.

Blue is the perfect backdrop that truly allows the details to shine. Handles and knobs in materials like brass, matte black, or stainless steel stand out beautifully against blue kitchen cabinets.

5. A personal touch.

A blue kitchen feels unique and personal. With so many shades of blue, from soft pastels to dark and dramatic tones, you can choose the hue that best reflects your style and taste.

KITCHEN

DETAILS THAT LAST A LIFETIME

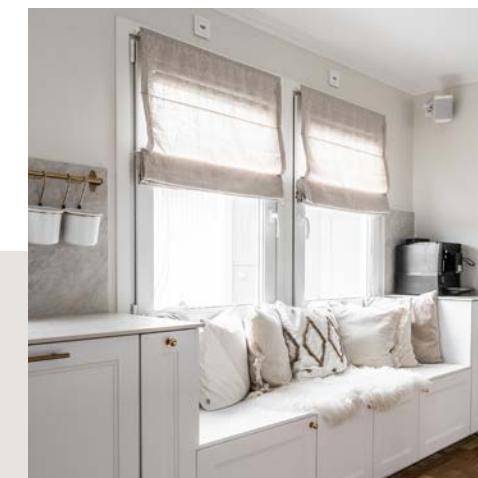

The kitchen is the heart of the home, where life is constantly unfolding. A place that is shaped by hands of all ages – from those covered in soil after gardening to those dusted with flour after baking.

Our products are carefully designed to harmonize with different styles and needs. They can soften the expression or give a more distinct character, standing out as details or blending seamlessly into the whole. Whether it's handles, lighting, accessories, or storage, they are crafted to withstand daily use and endure over time.

Function meets timeless design.

A bright and sleek kitchen where function meets timeless design. The white kitchen creates a spacious feel, while the Solliden knob and brass details add warmth and elegance. The light marble countertop enhances the sophisticated impression and provides practical workspace. With smart storage and generous surfaces, the kitchen becomes a harmonious space for both cooking and socializing.

One of our ambassadors, Lovisa, shares her experience working with Beslag Design.

“It feels really exciting! I’ve been looking for ways to incorporate more and better functionality into many parts of my home, so it’s really fun that it’s finally becoming a reality! The heart of Beslag Design is quality, sustainability, and aesthetics, which align perfectly with my own values. When it comes to style, I think many people assume that Beslag Design only offers modern hardware, but there is actually so much beautiful classic style as well.”

Burnished brass

The burnished of brass creates a beautiful finish and a deeper, warmer tone that complements the rustic and vintage aesthetic. We've expanded our collection with burnished brass, now available on our popular Sture knob, the Lip profile handle, and the new Knob Oliver T.

Uniform

Uniform is a series of modern and sleek knobs and handles, available in several different colors. With its burnished brass finish, it adds a unique and sophisticated touch that elevates both classic and modern interiors.

A subtle and warm feeling.

Still & Storm was tasked with completely renovating an apartment for a client with a clear request: it had to be "top of the line." With complete creative freedom, we chose Beslag Design and Claessons Kök to bring the vision to life. Our goal was to create an interior with a sophisticated, subtle, and warm feel.

Create a unified interior design.

Creating a unified style throughout your home or project can be challenging, but by selecting matching interior details such as knobs, handles, and door handles, you can achieve a harmonious and well-planned whole. We guide you through the process and show how Beslag Design can help you tie each room together with style and elegance.

1. Define the style.

To make it easier to choose hardware and interior details that create a cohesive style, it's important to define a clear interior style that runs throughout the entire home or project. Modern, minimalist, classic, industrial, Scandinavian, retro/functionalist, or rustic style?

2. Cohesive colors and materials.

A cohesive color palette and thoughtful material choices are essential for creating a unified feel and overall harmony. By selecting hardware and details based on colors and materials, you can ensure they seamlessly integrate into the entire home or project, complementing the overall interior style.

3. Matching details for every room.

Creating a common thread throughout different rooms is easy with Beslag Design's products. Small details like door handles, wardrobe knobs, drawer pulls, and kitchen handles can make a significant difference in how cohesive the space feels.

MINIMALIST STYLE.

A clean and simple style where monochrome color palettes, such as white, gray, and black, are combined with smooth and discreet hardware in nickel-plated, chrome, or matte black finishes. Light wood details also complement the minimalist style.

INDUSTRIAL STYLE.

A robust and raw feel with dark, earthy tones like charcoal gray, brown, and black, paired with hardware in burnished brass, stainless steel, or details with a textured surface. This style emphasizes strength and durability, creating a bold, industrial aesthetic with a touch of warmth and character.

COUNTRY STYLE.

Soft, nature-inspired colors like white, beige, and pastel shades are combined with hardware in antique brass or porcelain. These details create a warm and welcoming atmosphere in a rustic kitchen, adding both charm and comfort to the space.

Jubilee

We are expanding our Jubilee collection with a new, elegant finish in polished nickel.

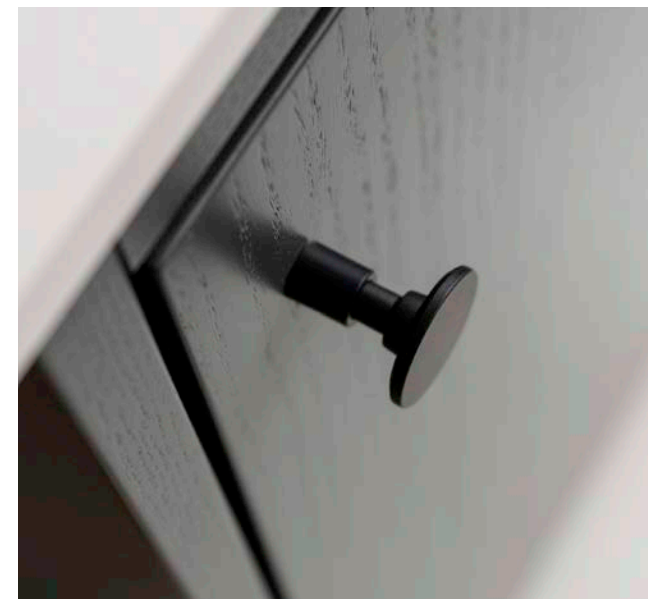

Now, you have even more opportunities to create unique combinations and add a luxurious touch to your home.

Monica Förster x Beslag Design

Jubilee is a collection of knobs and handles created in collaboration with the acclaimed designer Monica Förster. The design draws inspiration from a classic hardware piece but with a unique expression, where history and the future are seamlessly intertwined.

Jubilee takes its cues from a historical design, but with a stronger presence and a distinctive voice. It is a tribute that allows the past and future to converge and be reinterpreted in the products. The industrial feel is both classic and contemporary, blending timeless elegance with modern functionality.

A sense of form and curiosity.

“Every project begins with a thought. An idea that evolves into a conceptual design. Only then do I focus on form and details. We combine the intuitive and craft-driven with the technical.”

I am constantly curious about how different materials can be used and how new combinations can be created.”

More beautiful with time.

Untreated brass is an authentic and living material that ages beautifully over time, developing a unique patina with use. As a historic and sustainable material, brass gains an extra luster when combined with light grey cabinets and oak details, highlighting its natural beauty. A light marble countertop complements the overall look, adding timeless elegance to the room.

Corner cabinet pull-out. Cornerstone Maxx Planero

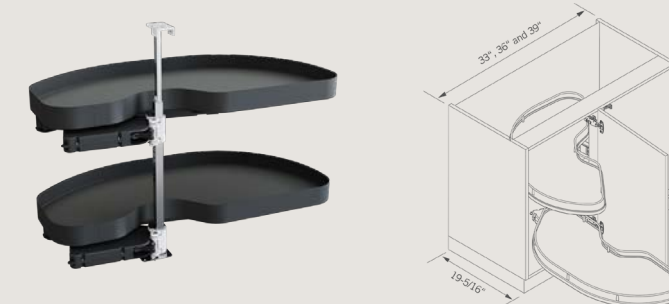

Cornerstone Maxx Planero is a fully extendable storage solution for base cabinets that maximizes space in the corner cabinet. Both shelves glide smoothly and silently out of the cabinet, providing easy access to everything. Each shelf can be fixed at the desired height. With its lava gray color and sleek, smooth design with fully enclosed sides, Cornerstone Maxx Planero leaves a graceful impression. This corner carousel seamlessly integrates into modern kitchens and makes storage easily accessible.

There are two variants of the corner pull-out: right-hand and left-hand.

Right corner pull-out: Left-hinged door, pull-out from the right.
Left corner pull-out: Right-hinged door, pull-out from the left.

Both options provide easy access to the corner cabinet's hidden space, making organization and item retrieval easier. It is easier to organize and locate your items.

- Easy to install, even for retrofitting.
- EasyFit: Tool-free shelf installation.
- Soft-closing with damping.
- Easy height adjustment, even after installation.
- Hidden fastening creates the feeling of floating shelves.

Kitchen rail Aveny

Aveny is an elegant and practical kitchen rail that adds both function and style to your kitchen. Mount it on the kitchen wall to easily store utensils, pot holders, or towels – or place it on the kitchen island for easy access to everything.

Made from untreated oak, Aveny not only provides a functional solution but also serves as a decorative detail that enhances the kitchen's atmosphere. The combination of the natural warmth of oak and the sleek matte black accents creates a harmonious and stylish feel in your kitchen.

The rail is made of untreated oak.

- Polished untreated brass
- Matte black
- Brushed stainless steel

The rail is made of untreated oak, offering an honest and natural surface that ages beautifully over time and develops a unique patina. Each rod is one-of-a-kind in its color and texture, adding authenticity and individuality to your kitchen. By treating the rod with oil, lacquer, or paint, you can customize it to your personal taste, creating a cohesive look that blends seamlessly with your kitchen design. To preserve its natural beauty and extend its lifespan, we recommend treating the rod.

Aveny can be shortened to the desired length or extended using the extension kit. It comes with a 600 mm rail, 2 holders, wood screws, and 5 hooks. Additional hooks are also available for purchase.

Maximum load: 5 kg for a set with rail and 5 hooks.

Feskekörkan reopened in Gothenburg

Feskekörka now welcomes visitors to a new, vibrant meeting place where classic craftsmanship meets modern design.

An impressive transformation.

After four years of extensive renovation, Göteborg's iconic Feskekörkan reopens its doors to the public. 2024 marks a new era for this classic landmark, now upgraded into a modern destination with a range of new features: fish counters, a bar serving schnapps on tap, three restaurants, and extended opening hours into the early morning.

With elegant LED lighting integrated into the bar counters and restaurants, a warm and inviting atmosphere is created that highlights the space and the beautiful details of the building.

LED-strip Flexy LED SE H4-24

An extremely thin and flexible LED strip, ideal for installation in wardrobes, bookshelves, and cabinets. Made of soft silicone, it can be easily pressed into milled grooves without the need for additional fastening. It fits grooves with a width of 4 mm and a depth of 8 mm, and features dual connections for easy installation. The only limit is your imagination – Flexyled SE H4-24 can be used in straight, curved, or circular grooves and is easily pressed into place.

KNOBS

Choosing colorful knobs for your kitchen and home is an easy and effective way to add a personal touch to the room. Colored knobs can create exciting contrasts, elevate a neutral interior, and bring energy to the space. Whether you opt for subtle, earthy tones or bold colors, the knobs can transform the overall impression and contribute to a harmonious or dynamic atmosphere.

Colored knobs also provide an opportunity to tie together various design elements in the home, such as walls, textiles, or other interior details. They are a versatile tool for expressing style and personality, and by choosing the right shades, you can easily alter the room's character without major changes.

Matte black

Details for a sleek and cohesive expression.

Matte black is a hue that combines sophistication and subtle strength, making it ideal for accentuating the details in a room. In interior details, matte black creates a bold yet understated contrast, fitting both modern and classic environments. The matte finish adds a sense of luxury and exclusivity without overwhelming the space – it's there to enhance and complement.

With matte black handles, knobs, or fittings, you can create a stylish whole where the details take center stage. This hue is especially popular in kitchens and bathrooms, where it brings a minimalist, industrial look that feels both functional and elegant. Matte black details are more than just a trend – they represent a thoughtful choice for those wanting to add a touch of drama and depth to their home.

At Beslag Design, you'll find a wide selection of products in an elegant matte black finish – from handles and knobs to hooks, door handles, and bathroom accessories. Each product is carefully designed to easily combine and create a cohesive, sleek look throughout your home.

With our matte black interior details, you can give every room a distinct sense of modern style. Choose matte black for a harmonious blend of functionality and design, whether you're updating the kitchen, bathroom, or entrance. Matte black from Beslag Design is a conscious choice for a home where every detail matters.

TONITON

A NEW COLOR PALETTE FROM TONITON

Our collaboration with TONITON makes it a little easier to add color to your home. The handles and knobs are designed in timeless colors that can be combined with faucets, cabinet doors, lamps, and wall paints from TONITON's balanced product palette. If you haven't considered colorful cabinet doors, the hardware makes a beautiful accent when paired with natural materials like oak and walnut.
